# ROCKNOLL'S GIANT PANSIES

## Plant this fall for Early Spring Flowers

### WINTERING PANSIES

Pansies and Violas are much harder than many gardeners realize. They will winter outdoors in most sections of the U. S. A. and Canada with little or no protection. Complete cultural directions how to winter and grow pansies will be sent with each order.

### CANADIAN MAPLE LEAF GIANTS

One of the largest flowered strains of giant Pansies but with somewhat less range of colors.

PLANTS—25 for \$1.50 100 for \$4.75

### ROCKNOLL GIANT STRAIN

A well balanced mixture with large flowers in all shades found in Pansies. The Reds are especially outstanding.

PLANTS—25 for \$1.00 \$3.50 per 100  
\$25.00 per 1000

### HARDY OUTDOOR STRAINS

To have stocky Pansy plants covered with giant flowers next spring the plants must be planted this fall preferably in early October in the north and Mid November further south. Plants ready from Oct. 1st on.

Many of the plants we send out this fall will be in bud and some in bloom. In a mild winter you will have pansies in bloom all winter through.

### SWISS GIANT PANSIES TO COLOR

ALPENGLOW—Bright scarlet

ULLSWATER—Sky blue

BERNA—Dark violet blue

CORONATION GOLD—Pure yellow

SNOW QUEEN—Pure white

PLANTS—25 for \$1.75 \$5.00 per 100  
SPECIAL—100 Plants,  
20 Each Color, \$4.75

### VIOLAS—TUFTED PANSIES

Like little pansies but more dwarf and floriferous. More hardy. Excellent for borders.

CHANTRYLAND—Warm apricot

BLUE PERFECTION—Lavender blue.

LUTEA SPLENDENS—Good yellow.

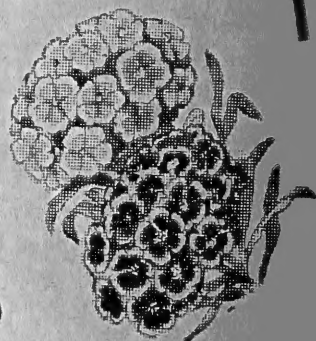

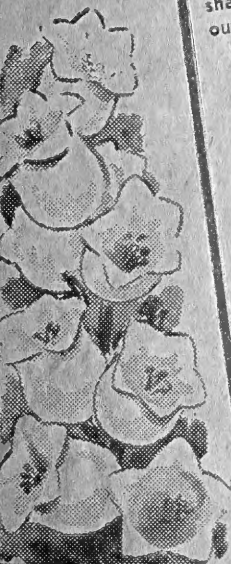

WHITE PERFECTION—Purest white.

ASSORTED—Hundreds of colors and blends.

PLANTS—20 for \$1.00 \$4.00 per 100

## ORIENTAL POPPIES

**LARGE 2 YEARS OLD FIELD GROWN PLANTS THAT BLOOMED WELL IN JUNE**

Oriental poppies are very easy to grow, provided you remember one or two peculiarities. Natives of a semi-arid part of the world, they will not tolerate wet feet or shade. They bloom in June and July, then go into a dormant period losing their foliage entirely during most of August and September. While they are dormant and through October is the best time to transplant large field grown poppies.
